Application for Development Consent

To apply for Development Consent this form **must** be completed and be submitted by the Academic Head.

Development Consent is required for all new programmes and for new delivery of an existing programme in a new mode and/or new location.

The purpose of Development Consent is to ensure that the proposal is:

- a) consistent with Departmental and College Strategy for academic provision (taking into account staffing, the availability of student numbers and other learning resources)
- b) likely to recruit sufficient student numbers to be sustainable and to provide an appropriate level of student learning experience
- c) capable of being resourced to ensure high quality student learning opportunities (details will need to be provided of projected income and resource requirements, including any specialist resources to facilitate learning and teaching). A financial analysis template is provided which must be completed in consultation with the Finance Department

The purpose is also to determine:

- d) the extent to which the programme is suitable for delivery leading to a higher education award (in particular bearing in mind the Framework for Higher Education Qualifications)
- e) whether the programme leads to an award which Awarding Bodies will approve
- f) whether statutory or professional body accreditation is to be sought and the likely timescale and process involved

B	<p>ACADEMIC OUTLINE AND RATIONALE</p> <p><i>Please ensure that where necessary, each section below clearly identifies differences/additions for each programme and its variant using the programme identifiers (a,b,c etc.) allocated in section A2 of this form.</i></p>																											
25	<p>Proposed Programme Rationale and Overview</p> <p><i>Provide a brief introduction to, and rationale for the programmes, identifying the distinctive/salient features and the ‘big ideas’ that thread through their design. Please identify three to five high level ‘big ideas’ articulating the key ideas and ways of thinking, practising and knowing that lie at the heart of the key disciplines or areas of practice encompassed by each programme and its variants. Literature suggests that these are likely to be fundamental to learning within the discipline and will change the ways in which students think and act in a transformative way. For example, what changes are necessary for a student to move from leaving with a degree in social science, to becoming an emergent social scientist, or leaving with a degree in design to becoming an emergent designer?</i></p>																											
26	<p>Indicative Programme Aims</p> <p><i>As a guide, you should have four to six programme aims.</i></p>																											
27	<p>Indicative Programme Outcomes</p> <p><i>As a guide you should have six to eight programme outcomes. Please see: A Guide to Writing Programme and Module Level Learning Outcomes at the University of Hull for further information.</i></p> <p><i>Please remember to include any additional programme outcomes for the programme variants listed on this form using the identifiers (a,b,c etc.) allocated in section A2.</i></p>
