

Master of Arts (MA) in Education & Professional Development

Campus: University Centre Rotherham

Code: UCRED007*

Type: Part Time

The programme has been designed to further enhance the knowledge and skills of educational practitioners in three broad areas: critical reflection; policy and practice; and research and academic scholarship. It is an academically rigorous programme underpinned by commitment to professional development which draws upon a range of differing perspectives, academic disciplines and sustainable practices applied to the practitioner's context. The purpose of the programme is to develop reflexive practitioners who shape and influence policy and its implementation within a changing professional context, whilst responding to the needs of learners, employers and organisations.

The blended learning model will allow for some flexibility in the modes of study and the organisation is able to offer additional support to students through personal and academic tutorials, group seminars, ICT and library facilities.

Why Study With Us?

This course is designed for those who are already in practice in an educational setting, this may be as a classroom-based practitioner, programme leader, manager or in a more organisational role; this could include voluntary roles

Modules Covered

Year 1

- Action Research in Education
- Education in a Digital Society
- Critical Issues in Education

Year 2

- Mentoring & Coaching for Educational Professionals
- Research Project
