

Esports

HNC in Esports

Campus: Dearne Valley College

Code: D04HE01

Type: Full Time

Esports is a global phenomenon, growing into an industry that generates billions every year. The esports industry boom is reflected with thousands of new job opportunities appearing every year within esports in the UK and even more globally.

The BTEC HNC in Esports will help prepare learners for the logistics of operations management by observing these practices in business through the lens of Esports. At Dearne Valley College, students will be able to use our cutting-edge facilities to explore the world of esports, learning about emerging markets and strategies for niche markets, the role of social media in the business world and how to effectively utilise it, financing involved in event production and to both understand and manage key finances, learners will also consider new and developing technologies and explore their benefits for the world of esports. Learners will also partake in various research topics to grow their own specialist skillsets and help them further understand the esports industry.

Esports casts a broad net and offers a wide range of highly valuable, job ready skills that this course will prepare you for. With future career prospects including social media strategist, marketing executive, production manager, coach, accounting, video production, broadcasting, journalist and human resources. That can be applied both in the esports industry and in other high value sectors, esports has a career for everyone whether passionate about the competition or the industry

Why Study With Us?

Students benefit from studying in a bespoke immersive environment, built to host the digital requirements of the course. This includes two large esports gaming and teaching rooms, VR and Shoutcasting suite.

The design of the course focuses on a broad range of vocational activities to develop specific sector skills and behaviours (the attitudes and approaches required for competence) in addition to transferable skills such as communication, teamwork, research and analysis, which are highly valued in higher education and in the workplace.
