Computing and Digital

HNC - Digital Technologies (Cyber Security Technologist) HTQ

Campus: Rotherham College
Code: U04HE02
Type: Part Time

About This Course

This qualification is designed to give learners the knowledge and associated skills and behaviours required to work in a variety of roles in Cyber Security. It will also prepare learners to progress to further study and apprenticeships in this area. This qualification is designed for learners who want to upskill or retrain within the digital sector. It is also suitable for learners who want to further their studies in the digital sector. This course will give learners the skills, knowledge and behaviours to meet specific employer needs within securing technology infrastructure against cybercrime.

What Will I Study?

The course provides students with advanced learning in the field of cybersecurity. This course covers essential topics such as network security, cybersecurity principles, ethical hacking, incident response, and information assurance. Students will gain a thorough understanding of common cyber threats, vulnerabilities, and risk mitigation strategies. The course emphasizes practical skills development, enabling students to implement security measures, conduct vulnerability assessments, and analyse security incidents.
